[How to Achieve Top-Down Row Grouping in Excel Using rust_xlswriter?](#)

[help](#)

[kailashpradhan](#) April 17, 2025, 10:54am 1

I'm working with the `rust_xlswriter` crate to generate Excel files in Rust, and I'm trying to **group rows in a top-down manner** — meaning I'd like the **collapse/expand button to appear at the top** of a grouped section, not the bottom.

Is there any way to **simulate or force a top-down grouping** behavior using `rust_xlswriter`?
